

**ZONE/STAR Brush Guard
Installation Instructions
Black- Part# 7062
Gunmetal- Part# 7074
Stainless- Part# 7063**

Parts List

Brush Guard-1

 *Always remember to wear appropriate eye protection!*

NOTE: Due to the weight of the roof, installation of the brush guard is a 2-3 person job.

1. Remove the front stock roof mounting bolts. Save the hardware for installation of the brush guard. **NOTE: Have at least 1 person hold the roof in place when hardware is removed.**
2. Using the stock hardware install the brush guard on the outside of the roof supports and to the stock top mounting location as shown in Figure 1.
3. Securely tighten all bolts.
